Transferring music to your m:robe

Connecting to your PC/Charging battery (using the USB cable)

Connect your PC and your m:robe.

- 1 Connect the USB cable to your PC and your m:robe. Your PC recognize your m:robe as a removable disk, and charging starts.

- 2 Transfer files from your PC to your m:robe. Drag and drop the desired file to m:robe on the screen display of your PC.

Notes

- Do not change, on your PC, the names of MUSIC, RECORD, LINE-IN, VOICE or other folders in your m:robe. If you do, it may cause your m:robe to malfunction.
- The maximum number of files you can transfer to your m:robe is 400; the maximum number of folders is 35; the maximum number of hierarchy levels is 5.

The following screen appears after charging completes.

Tip

The battery is fully charged after approximately 3 hours.

Disconnecting your m:robe from your PC

For Windows Me/2000/XP users:

- 1 Click [Remove the hardware] on the system tray.
- 2 Click the displayed message.
- 3 [The USB storage device can now be safely removed from the system, remove the USB cable from computer] appears. Click [OK].

For Windows 98SE users:

- 1 Double-click [My Computer] icon, then right-click [Removable Disk] to open a pop-up menu.
- 2 Click [Eject] on the menu.

For Macintosh users:

Drag and drop [NO_NAME] icon to [trash box].

The icon to indicate the connection of your PC and m:robe disappears, and your m:robe is disconnected from your PC.

Disconnect your m:robe from your PC after the following message is displayed.

Basic Operations

Connecting the earphones embedded necklace

Connect the supplied earphones embedded necklace to your m:robe.

Turning your m:robe on/off
